Supporting Canadian Muskies

Muskies Canada works toward the sustainability of wild Muskellunge in Canada. This is achieved through angler education (catch & release), by supporting science through research/education grants to students doing Muskie research at Masters or PhD level, and throughout direct participation in monitoring and tracking studies. We partner with Provincial Ministries, Ducks Unlimited Canada and Regional Conservation Authorities to restore wetland habitats that are essential for sustainable natural reproduction of this important apex predator.

Admission

\$15 advance/\$20 at the door.
Kids free (13 and under)

- Great Prize Table Draws
- Silent Auctions
